## GROW: Girls Reshaping Our World

The girl scouts association of Taiwan successfully conducted a fair at Hushan Park on Sunday 19th February to celebrate world thinking day 2017.

The annual event was commemorated under the universal theme "GROW," and was further elaborated by the Girl scouts of Taiwan to state; ***Girls Reshaping Our World.***

Huashan park was a sea of blue as the girl scouts were decked in full uniform, armed and ready to take on the day. For the first time, the event was organized and conducted by the young leaders and saw many different branches throughout Taiwan coming together to make the event and overall success.

The fair comprised different components that captured the attention of many onlookers and in so doing was able to show why the association is among the longest serving nonprofit organizations not only in Taiwan but worldwide.

The girl scouts proudly depicted this year's theme as they engaged in various activities geared at not only publicizing the association but showing Girl Power! Some of the activities

include:

**Generation Talk:** Wisdom is only valuable when it can be handed down from one generation to the next. A generation talk was conducted where senior girl scouts passed down the wisdom that they would have gathered throughout the years to the younger girl scouts who were more than willing to soak up their knowledge.

**Cookie sale:** Girl scouts are universally known for their delicious cookies. This year the association collaborated with Joy & Hope Wheat cookie company (喜願共和國) to produce cookies; after which the girls took to the streets in true girls scout fashion to sell the cookies to eager buyers.

**Treasure hunt:** Participants were engaged in a hunt for different clues leading to answers that would provide information about the association.

**Free being me:** The free being me platform was created so that the girls can display their confidence as well as to show that there is much more to the association than just camping. The girls used this opportunity to model and to share various slogans that they created.

The day climaxed with a concert which allowed the girls to showcase their talent. Senior girl scouts also took to the stage and were able to capture the undivided attention of the audience including onlookers at the Huashan Market square.

All in all, World Thinking Day 2017 was an enormous success for the girls in Taiwan. They came, they saw, they conquered and they are well on their way to reshaping their world.
