The Helen Storrow Seminar is more than just a week in the Swiss Alps. It's a chance to make a real difference to an environmental issue that affects your community, and to go on a journey with other young people to form a network of global change agents.

The project that you will design and carry out is the heart of this experience, and we will be selecting applicants both on how they fit the participant criteria, and on the strength of their project ideas.

You will have lots of support before, during and after the seminar to turn your ideas into a real project, and we are looking for participants who are really motivated and inspired to make a change.

18. Which environmental issue/s do you think most need action in your community?

APPROVAL OF INTERNATIONAL COMMISSIONER

The Helen Storrow Seminar is a WAGGGS Leadership Development event for Girl Guides and Girl Scouts aged 18-25. During the seven day programme, participants will collaborate with their peers from around the world to develop their leadership practice, learn more about environmental issues and how to take action in their community. We believe that this experience not only prepares participants to make a difference to the environment, but is a strong foundation for future leadership roles in their Associations and communities.

True to the Girl Guide and Girl Scout educational method, learning by doing is at the heart of the Helen Storrow Seminar. We want participants to not just learn about leadership and social impact, but to experience how they can make a difference. We would like each participant to plan and carry out a project to protect the environment. This could be a new project, or could build on something that is already happening in the Association. Participants will be expected to consider how their project can also benefit their Association at local or national level.

For a successful experience, participants need to:

- a) Fit the participant criteria (see page 3)
- b) Be enthusiastic and committed to developing a great project (see page 4)
- c) Have the support of their Association to apply and share their learning, and implement their project
